INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Kenwood Fire Protection District

I have audited the accompanying financial statements of the governmental activities and major funds of the Kenwood Fire Protection District (District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents..

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

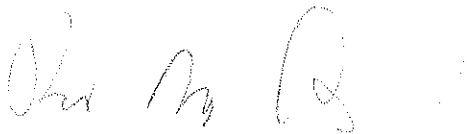

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major funds of the Kenwood Fire Protection District as of June 30, 2016, and the respective changes in financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America as well as prescribed by the State Controller's Office and state regulations governing special districts.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 8 and 34 through 35 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the

information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

A handwritten signature in black ink, appearing to be "John M. [unclear]", written in a cursive style.

MANAGEMENT DISCUSSION AND ANALYSIS

Our discussion and analysis of the District's financial performance provides an overview of financial activities for the year ended June 30, 2016. Please read this in conjunction with the financial statements as listed in the Table of Contents.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded their liabilities at the close of the fiscal year by \$4,621,614 (*net position*). Of this amount, \$3,389,649 (unrestricted net position) may be used to meet the district's ongoing obligations to citizens.
- The District's total net position increased by \$330,702 per its Statement of Activities. This compared to an increase of \$289,304 last year.
- The District purchased \$62,312 in capital assets during the year
- At the close of the current fiscal year, unassigned fund balance for the general fund was \$799,333 or 163 percent of general fund expenditures. One hundred percent of this amount is budgeted to be spent in the next fiscal year.
- The District's only long-term liability is compensated absences at \$12,765.

USING THIS ANNUAL REPORT

This annual report consists of financial statements for the District as a whole with more detailed information about the District's general fund. The statement of net position and the statement of activities (on pages 9-10) provide information about the activities of the District as a whole and present a longer term view of the District's finances. (They include capital assets). The fund financial statements (page 11 and 13) present a short-term view of the District's activities. The fund financial statements include two funds; the General Fund and the Capital Projects Fund. (They include only current assets expected to be collected in the very near future and liabilities expected to be paid in the near future).

THE DISTRICT AS A WHOLE

One important question asked about the District's finances is, "Is the District better or worse off as a result of the year's activities?" The information in the government-wide financial statements helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting (and reports depreciation on capital assets), which is similar to the basis of accounting used by most private-sector companies.

The changes in net position (the difference between total assets and total liabilities) over time is one indicator of whether the District's financial health is improving or deteriorating. However,

one must consider other nonfinancial factors in making an assessment of the District's health, such as changes in the economy, and changes in the District's tax base, to assess the overall health of the District.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into one category.

Government funds. Governmental *funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on (1) how cash and other financial assets can readily be converted to available resources and (2) the balances left at year-end that are available for spending. Such information may be useful in determining what financial resources are available in the near future to finance the County's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains two major governmental funds according to their type (general fund, and capital projects). The general fund reports operations in this fund. The fund will focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. This fund is reported using an accounting method called modified accrual accounting which measure cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental Fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This consists of a budget to actual comparison. Notes on budgetary procedure are provided for this report.

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the statement of net position and changes in net position of the District's Governmental Activities, as presented in the District-wide Statement of Net Position and Statement of Activities that follow:

Statement of Net Position						
For the Years Ended June 30						
	<u>2016</u>		<u>2015</u>			
ASSETS						
Cash and investments	\$	3,359,603	72%	\$	3,083,750	71%
Other current assets		64,271	1%		47,878	1%
Non-current asset		156,723	4%		97,026	2%
Capital assets		1,075,242	23%		1,094,365	25%
Total assets		4,655,839	97%		4,323,019	98%
LIABILITIES						
Current liabilities		21,460	63%		19,694	61%
Long term liabilities		12,765	37%		12,413	39%
Total liabilities		34,225	100%		32,107	100%
NET POSITION						
Net investment in capital assets		1,075,242	23%		1,094,365	26%
Restricted-OPEB		156,723	4%		97,026	2%
Unrestricted		3,389,649	73%		3,099,521	72%
Total net assets	\$	4,621,614	100%	\$	4,290,912	100%

The following points explain the major changes impacting net assets as shown.

Cash and investments increased by \$275,853 from last year. The District finished remodeling the fire house bathroom, installed ADA access outside the entrance to the fire station, purchased a generator, and an extractor for equipment on the fire engine. Cash is the District's largest portion of net assets, at 72% of total assets this year.

Long term liabilities increased by \$352, due to an increase of sick leave and vacation liabilities.

Unrestricted net assets of \$3,389,649 is available for the District's future obligations.

**Changes in Net Position
For the Fiscal Year Ended June 30**

	2016		2015	
REVENUES:				
Program revenues:				
Charges for services	\$ 2,856	0%	\$ 13,146	1%
GENERAL REVENUES:				
Property taxes	822,470	98%	756,707	94%
Investment Earnings	5,166	1%	5,940	1%
Intergovernmental	5,881	1%	33,987	4%
Miscellaneous	-	0%	3,107	0%
Total revenues	836,373	100%	799,741	100%
EXPENSES:				
Salaries and benefits	305,621	60%	324,724	64%
Services and supplies	118,615	24%	105,839	20%
Depreciation	81,435	16%	79,874	16%
Total expenses	505,671	100%	510,437	100%
Excess of revenues over Expenditures	330,702		289,304	
Change in net position	330,702		289,304	
Net position-beginning of year	4,290,912		4,001,608	
Net position-end of year	\$ 4,621,614		\$ 4,290,912	

The vast majority of the District's revenues is derived from property taxes. For the year ended 6/30/2016, property taxes were 98% of total revenue.

Salary and benefit decreased 6% over the prior year due to lower OPEB expense. Services and supplies increased 12% over the prior year.

Annual depreciation expense was \$81,435.

FUND FINANCIAL STATEMENTS

The fund financial statements provide detailed information about the District's general fund and capital projects fund.

The fund financial statements provided a short-term view of the District's operations. They are reported using an accounting basis called modified accrual which reports cash and other short-term assets and liabilities (receivables and payables) that will soon be converted to cash or will soon be paid with cash.

As shown on page 13, the governmental fund balance increased by \$290,480. Fund balance increased due to tax revenues being greater than expenditures for the current year.

The district has \$2,603,081 in a capital projects fund. The district has allocated 75% for infrastructure improvements and 25% toward apparatus replacement.

On page 14, there is a reconciliation from the modified-accrual net change in fund balance reported in the Statement of Revenues, Expenditures, and Changes in Fund Balance for the governmental fund to the full-accrual change in net asset of the Statement of Activities

CAPITAL ASSETS AND DEBT ADMINISTRATION

Debt Administration

The District has no debt outstanding such as bond issuances or capital leases. The estimated compensated absence liability due beyond one year was \$12,765 for 6/30/2016 and \$12,413 for 6/30/2015.

See notes to financial statements for further explanation.

Capital Assets

The following purchases were made for the current year.

Leete's generators	\$27,487
Extractor	6,097
Bathroom remodel, permits, ADA ramp	<u>28,728</u>
	<u>\$62,312</u>
Depreciation of the capital assets	\$81,435

Additional information on the District's capital assets can be found in note 6 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

1. The District is anticipating a \$44,000 decrease in the operating budget.
2. Salaries and benefits have been budgeted at \$77,729 more than last year's actual.
3. Services and supplies have been budgeted at \$59,380 higher than last year's actual.
4. Capital outlay has been budgeted at \$41,000 in expenditures next year.

All of these factors were considered in preparing the District's budget for the fiscal year ending June 30, 2016.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances and to demonstrate accountability for public funds. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Kenwood Fire Protection District, P. O. Box 249, Kenwood, California 95452, or call (707) 833-2042.

**KENWOOD FIRE PROTECTION DISTRICT
RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUND TYPES
TO THE STATEMENT OF NET POSITION
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

**Reconciliation of the change in fund balance-total governmental funds
to the change in the net position of governmental activities**

Net change in fund balances-governmental fund **\$ 290,480**

Amounts reported for governmental activities in the statement of
activities are different because:

Governmental funds report capital outlays as expenditures, however,
in their statement of activities the cost of those assets is allocated
over their estimated useful lives as depreciation expense.

Capital asset purchases capitalized	62,312
Depreciation expense	(81,435)

The statement of activities reports gains from the sale of capital assets
as the difference between the proceeds from the sale of capital assets
and the book value of the sold capital assets, while the governmental
funds report the proceeds from the sale of capital assets. The
difference is the book value of the sold capital assets.

-

Some expenses reported in the statement of activities do not require the
use of current financial resources, and therefore, are not reported as
expenditures in governmental funds.

Change in compensated balances	(352)
Change in OPEB	59,697

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The Kenwood Fire Protection District was formed by resolution in May 21, 1945 by the Board of Supervisors of the County of Sonoma as a Fire Protection District under and pursuant to provisions of the Health and Safety Code of the State of California. The purpose of the District is to provide fire protection, emergency medical and related services to the unincorporated township known as Kenwood. The District serves taxpayers and residents in a special unincorporated area of the County of Sonoma, the boundaries of which are set by resolution by the Board of Supervisors. The District's governmental powers are exercised through the Board of Directors.

INTRODUCTION

The District's financial statements are prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November, 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the District are discussed below.

BASIC FINANCIAL STATEMENTS

GOVERNMENT-WIDE STATEMENTS

The District's basic financial statements include both government-wide (reporting the Districts as a whole) and fund financial statements (reporting the District's major funds).

In the government-wide financial statements (i.e. the Statement of Position and the Statement of Activities), the district's activities are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position are reported in three parts : (1) invested in capital assets, net of related debt, (2) restricted assets and (3) unrestricted net assets. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as soon as all eligibility requirements imposed by the grantor have been met.

The government-wide statement of Activities reports both the gross and net cost of each of the District's functions. The functions are supported by general government revenues (property taxes,

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GOVERNMENT-WIDE STATEMENTS (Continued)

Intergovernmental revenues and fire related charges, i.e. fire permit fees). The Statement of Activities reduces gross expense's (including depreciation) by related program revenues, operating and capital grants and contributions, including special assessments. Operating grants include operating-specific and discretionary (either operating or capital) grants while capital grants reflect capital-specific grants.

When both restricted and unrestricted resources are available for use, it is the district's policy to use restricted resources first, then unrestricted resources as they are needed.

GOVERNMENTAL FUND FINANCIAL STATEMENTS

Governmental fund financial statements include a balance sheet and a statement of revenues, expenditure, and changes in fund balance for its major governmental funds. An accompanying schedule is present to reconcile and explain the difference in net asset as presented in these statements to the net assets presented in the Government-wide financial statements.

Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues, and expenditures.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

The Capital Projects Fund accounts for financial resources to be used for capital expenditures or for the acquisition or construction of capital facilities, improvements, and/or equipment. Most of the capital outlays are financed via annual transfers from the General Fund plus interest earnings.

BASIS OF ACCOUNTING

Basis of accounting refers to the point at which revenue or expenditures/expense are recognized in the account and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied.

ACCRUAL

The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the cash flows.

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

MODIFIED ACCRUAL

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e. both measurable and available. "Available" means collective within the current period or within 60 days after year-end. The Board recognizes 360 days for grant reimbursements and charges and services. Expenditures are generally recognized when the related liability is incurred. The exception to this general rule is that payments for general obligation long-term liabilities are recognized when due.

FINANCIAL STATEMENT AMOUNTS

Cash and cash equivalents

The district has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with its commercial bank (Exchange Bank).

Prepaid Items

Payments to vendors that benefit future accounting periods are classified as a prepaid item until charged to expenditures in the period benefited.

Capital Assets

Capital assets, which include land, building, and improvements, fire apparatus, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000, and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimate historic cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the asset lives are not capitalized.

Buildings and improvements, fire apparatus, and equipment of the primary government, is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	30-50
Fire Apparatus	20
Truck/Automobile	5
Operating Equipment	5-15

KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position

Net position are classified into three components-invested in capital assets, restricted, and unrestricted. These classifications are defined as follows:

Invested in capital assets- This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation, and net of related debt.

Restricted net assets-This component of net position consists of net assets with limits on their use that are imposed by outside parties.

Unrestricted net assets- This component of net position consists of net assets that do not meet the definition of "restricted net assets" or "net investment in capital assets".

Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the district is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Governmental accounting principles provide that fund balance is reported in five components- nonspendable, restricted, committed, assigned and unassigned.

Nonspendable - This component includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted-This component consists of amounts that have constraints placed on them either externally by third-parties (creditors, grantors, contributors, or laws or regulations of other governments), or by law through constitutional provisions or enabling legislation. The district does not have a restricted fund balance.

Committed-This component consists of amounts that can only be used for specified purposes pursuant to constraints imposed by formal action of the District's highest level of decision making authority which includes ordinance and resolutions. Those committed amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed previously to commit those amounts. The district does have reserves that meet this component of fund balance.

Assigned- This component consists of amounts that are intended by the District to be used for specific purposes, but are neither restricted nor committed. The authority for assigning fund balance is expressed by the Board of Directors, Fire chief or their designee as established in the District's fund balance policy.

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Unassigned-This classification represents amounts that have not been restricted, committed or assigned to specific purposes within the general fund.

The district's policy is that committed and assigned fund balances are considered to have been spent first before unassigned fund balances are spent.

Use of estimates

The basic financial statements have been prepared in conformity to generally accepted accounting principles and therefore include amounts based on informed estimates and judgments of management. Actual results could differ from those estimates.

Encumbrances

Encumbrances represent commitment related to unperformed contracts for good or services. Encumbrances outstanding at year-end are reported as assigned fund balance and do not constitute expenditure or liabilities.

NOTE 2-STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budget Process

The budget of the District is a detailed annual operating plan that identifies estimated costs (appropriations) and results in relating to estimated revenues. The budget includes (1) Services and activities to be provided during the fiscal year, (2) the estimated revenue available to finance the operating plan, and (3) the estimated spending requirement of the operating plan. The budget represents a process through which policy decisions are made, implemented and controlled. State Law prohibits expending governmental funds for which there is no legal appropriation except under court order, for an emergency as defined by statute, or as otherwise provided by law. Annual appropriations that have not been encumbered lapse at year-end. The following procedures establish the budgetary data reflected in the financial statements.

Original Adopted Budget

On or before June 30, the Fire Chief prepares and submits to the Board a recommended budget
On or before September 30, the Board formally approves the recommended budget.
The Board conducts hearings to obtain public comment on the recommended annual budget.

Final Amended Budget

The legal level of control for appropriations is exercised at the chief's level within the fund level. Appropriations at this level may only be adjusted during the year with the approval of the Board. The Fire Chief may make adjustments at his discretion below that level. Such adjustments by the Board and the Fire Chief are reflected in the revised budgetary data present in the financial statements. Budgetary data is presented in the accompanying fund financial statements for the General Fund, since the operations of these funds are budgeted annually.

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 3-PROPERTY TAXES

The County of Sonoma is responsible for assessing, collecting and distributing property taxes in accordance with state law. Liens on real property are established on January 1st for the ensuing fiscal year. The property tax is levied as of July 1 on all taxable property located in the County of Sonoma. Secured property taxes are due in two installments, on November 1 and February 1, and are delinquent after December 10th and April 10th, respectively. Additionally, supplemental property taxes are levied on a pro rata basis when changes in assessed valuation occur due to sales transactions or the completion of construction.

Since the passage of California Proposition 13, beginning with fiscal year 1978-1979, general property taxes are based either on a flat 1% rate applied to the 1975-1976 full value or on 1% of the sales price of the property on sales transactions and construction after the 1975/1976 valuation. Taxable values on property (exclusive of increases related to sales and construction) can rise at a maximum of 2% per year.

On June 29, 1993, the Board of Supervisor adopted the "Teeter" alternative method for property tax allocation. This method allocated property taxes based on the total property tax billed. At year-end, the County advances cash to each taxing jurisdiction equal to its current year delinquent property taxes. In consideration, the District gives the County of Sonoma its rights to penalties and interest on delinquent taxes receivables and actual proceeds collected. The penalties and interest are used to pay the interest cost of borrowing the cash used for the advance.

NOTE 4-PROPERTY TAX RECEIVABLE

Property tax receivable

Property taxes are collected by its fiscal agent (County of Sonoma, Treasurer) and remitted to the District three times a year. The 4th quarter property tax receipts from mid-April till June 30th are remitted to the District at the end of July, thereby a receivable is booked at year-end.

Property tax receivable @ 06/30/2016	\$62,458
--------------------------------------	----------

Flat charges receivable

Flat charges collected are apportioned to the District to supplement property taxes collected for operating costs. Not all of the assessments were collected as of June 30, 2016, therefore; the remainder of the uncollected assessments is considered flat charges receivable.

Flat Charges Receivable @ 6/30/2016	\$621
-------------------------------------	-------

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 5-CASH

Cash and Investments

Total cash and investments at June 30, 2016 are as follows:

Cash in County Treasury	\$2,602,591
Cash in Commercial Bank	<u>757,012</u>
	<u>\$3,359,603</u>

Investments in the Sonoma County Treasurer's Investment Pool

The District's cash is pooled with the Sonoma County Treasurer, who acts as a disbursing agent for the District. If material, the fair value of the District's Investments in this pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the Treasury Pool for the entire Treasury Pool portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on accounting records maintained by the Treasury Pool, which are recorded on an amortized cost basis. Interest earned on investments pooled with the County is allocated quarterly to the appropriate fund based on its respective average daily balance for that quarter. The Treasury Oversight Committee has regulatory oversight for all monies deposited in the treasury pool.

As of June 30, 2016, the District's share of the change in fair value of Investments was not material.

Investments by District in Commercial Bank

The District pools cash from all sources and all funds so that it can be invested consistent with safety and liquidity, while funds can make expenditures at any time. The District's investments are carried at fair value, as required by generally accepted accounting principles. The District adjusts the carrying value of its investments to reflect fair value at each fiscal year end, and it includes the effects of these adjustments income for that fiscal year.

Investment Guidelines per County Treasurer

The District's pooled cash and investments are invested pursuant to investment policy guidelines established by the County Treasurer and approved by the Board of Supervisors. The objectives of the policy are, in order of priority: safety of capital, liquidity and maximum rate of return. The policy addresses the soundness of financial institutions in which the County will deposit funds, types of investment instruments as permitted by the California Government Code section 53601, and the percentage of the portfolio that may be invested in certain instruments with longer terms to maturity.

A copy of the Treasury Pool Investment Policy is available upon request from the Sonoma County Treasurer at 585 Fiscal Drive, Suite 100-F, Santa Rosa, California, 95403-2871.

KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 5-CASH (Continued)

Investment Guidelines per District

The District's cash and investments are invested pursuant to investment policy guidelines established by the District. The objectives of the policy are, in order of priority: safety of capital, liquidity and maximum rate of return. The policy addresses the soundness of financial institutions in which the District will deposit funds, types of investment instruments as permitted by the California Government Code section 53601, and the percentage of the portfolio that may be invested in certain instruments with longer terms to maturity.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. In a rising interest rate market, the fair value of investments could decline below original cost. Conversely, in a declining interest rate market, the fair value of investments will generally increase. The District manages its exposure of interest rate risk by investing in short-term CDs, so that the portfolio is liquid at all times and can provide the cash flow and liquidity needed for operations.

The county manages its exposure of interest rate risk by purchasing a combination of shorter term and longer term investment and by timing cash flows from maturities so that a portion of the portfolio is maturing evenly over time as necessary to provide the cash flow and liquidity needed for operations, which precludes the county from having to sell investments below original cost.

As of June 30, 2016, approximately 32% of the securities in the Treasury Pool had maturities of one year or less. Maturities from 1-5 years comprise 61.28% of the portfolio, and 6.72% had a maturity of more than five years.

Credit Risk

Investments in Treasury Pool

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Treasury Pool does not have a rating provided by a nationally recognized statistical rating organization.

State law and the County's investment Policy limits investments in commercial paper, corporate bonds, and medium term notes to the rating of "A" or higher as provided by Moody's Investors Service or Standard and Poor's Corporation.

Investment in Commercial Bank

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Exchange Bank invests funds in government securities with a rating provided by a nationally recognized statistical rating organization.

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 5-CASH (Continued)

Credit Risk

State law limits investments in commercial paper, corporate bonds, and medium term notes to the rating of "A" or higher as provided by Moody's Investors Service or Standard and Poor's Corporation.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposit or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the Treasury Pool's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposit and securities lending transactions:

The California Government Code requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under the state law. The market value of the pledged securities in the collateral pool must equal to at least 110% of the total amount deposited by the public agencies.

California law also allows financial institutions to secure the County's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

The California Government Code limits the total of all securities lending transactions to 20% of the fair value of the investment portfolio.

With respect to investments, custodial credit risk generally applies only to direct investment in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or governments investment pools. (Such as the Treasury Pool)

At year-end, the County's investment pool had no securities exposed to custodial credit risk.

Concentration of Credit Risk

The investment policy of the County contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. For a listing of investments in any one issuer (other than U.S. Treasury securities, mutual funds or external pool that represent 5% or more the total county investments, refer to the June 30th, 2016 Sonoma County CAFR (the last County of Sonoma audit available).

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code.

NOTE 7-INSURANCE

The District is exposed to various risks of loss related to torts, loss or damage to assets, injuries to employees, errors and omissions, for the District carries commercial insurance or is self-insured up to a certain limit. During the year, The District maintained five types of insurance: General liability, public official's errors and omissions, professional automobile, special events, and host and liquor liability. The District obtains its insurance coverage as a member of the Fire Agencies Insurance Risk Authority (FAIRA).

The District is self-insured for potential liabilities arising from worker's compensation claims. The District obtains its insurance coverage as a member of the Fire Agency Self-Insurance System (FASIS).

As a member of a public entity risk pool, the District is responsible for appointing an employee as a liaison between the District and the system, implementing all policies of the system, promptly paying all contributions, and cooperating with the system and any insurer of the system. The system is responsible for providing insurance coverage as agreed upon, assisting the District with implementation, providing claims adjusting, and defending any civil action brought against, the officers of the system.

NOTE 8-COMPENSATED ABSENCES

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the government funds only if they have matured, for example, as a result of employee resignations and retirements.

NOTE 9-LONG-TERM LIABILITIES

Activity of the Long-Term liabilities for the year ended 6/30/2016 was as follows

<u>Description</u>	<u>07/01/2015</u>	<u>Additions</u>	<u>Reductions</u>	<u>06/30/2016</u>
Compensated Absences	\$ 12,413	\$ 9,932	\$ 9,580	\$ 12,765

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 10-PENSION PLAN (CALPERS)

Plan Description

The District contributes to the California Public Employees Retirement System (CalPERS), an agent multiple-employer public employee defined benefit pension plan. CalPERS provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provision and all other requirements are established by state statute and local resolution. Copies of CalPERS annual financial reports may be obtained from their Executive Office at 400 P Street, Sacramento, CA 95814.

Funding Policy

Participants are not required to contribute a percentage of their annual covered salary. The district pays both the employee rate (8.922%) and the employer rate (14.644%) for a combined rate of 23.566% for Fiscal Year 15-16 of annual covered payroll for safety employees. The amount contributed is paid as required by the actuarially determined rate. The contribution requirement for plan members and the District are established and may be amended by CalPERS.

Funded Status and Funding Progress of the Plan

Safety Plan-2% at 50

The CALPERS Annual Valuation Report, dated June 30, 2015, a Safety Plan specific to the District is 78.9% funded. See four year trending information below regarding the plan's accrued liability, share of pool's market value of assets, plan's share of unfunded liability, funded ratio, and annual covered payroll.

NOTE 10-PENSION PLAN (CALPERS) (Continued)

Annual Pension Cost

For June 30, 2016, The District's annual pension cost of \$20,124 for CalPERS was equal to the District's required actual contributions. The required contribution was determined as part of the June 30, 2015, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions include (1) 7.50% investment rate of return, (net of administrative expense), (b) projected annual salary increase that vary by duration of service, and (c) an overall payroll growth assumption of 3.00%. Both (a) and (b) include an inflation component of 2.75%. Effective June 30, 2013, CalPERS will employ an amortization and smoothing policy that will pay for gains and losses over a fixed 30-year period with the increases or decreases in the rate spread directly over a 5-year period.

SIX YEAR TREND INFORMATION FOR THE DISTRICT

<u>Fiscal Year</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>

NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 11-POST EMPLOYMENT BENEFIT OBLIGATION

Plan Description

The Kenwood Fire Protection District defined benefit Postemployment Healthcare Plan provides medical benefits to eligible retired districts employees and their beneficiaries. The authority to amend the plan rests with the District's Board of Directors. The District is affiliated with the California Employer's Retiree Benefit Trust (CERBT), an agent plan consisting of an aggregation of single-employer plans for the purpose of prefunding postemployment benefits. CALPERS issues a publicly available financial report that includes financial statements and required supplemental information for CERBT. Copies of CERBT's annual financial report may be obtained by writing the plan: California PERS, CERBT, (OBEP), P.O. Box 942709, Sacramento, CA 94229-2709.

Funding Policy

The District contributed on a pre-fund basis in FY 13-14, and approved a payment to continuing prefunding the OBEP cost going forward in FY 15-16. The District provides continuation of medical coverage to its retiring employees. The District's required contribution rate is based on the annual required contribution (ARC), an amount that is actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the District over a period not to exceed thirty years

Annual OPEB Cost and Net OPEB Obligation

The District reported on a pre-fund basis for the fiscal year ended June 30, 2016.

Annual required contribution	\$ 31,196
Interest on net OBEP obligation	(7,401)
Adjustment to the ARC	10,425
Annual OPEP cost (expense)	34,220
Contributions made on behalf of employee	19,967
Employer Contribution	61,013
Change in Net OBEP Obligation	46,760
Net OPEB obligation (Asset), Beginning of fiscal year	<u>(109,963)</u>
Net OBEB obligation (Asset), End of fiscal year	\$ <u>(156,723)</u>

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016**

NOTE 11-POST EMPLOYMENT BENEFIT OBLIGATION (Continued)

Funded Status and Funding Progress of the OPEB Plan

The District hired Bickmore Risk Services and Consulting (BRS) to conduct a 2nd actuarial report as of July 1, 2015 to determine the actuarial valuation of OPEB liabilities as of July 1, 2015 and forward three years. Based on Bickmore's Actuarial report, Kenwood Fire Protection District contributed \$55,749 in 2015 to a single employer CAL PERS trust account.

The Valuation process introduced an implicit rate subsidy in this 2nd actuarial report, that was not previously required to be valued by the District under GASB 45. The effect of the implicit rate subsidy is to add another layer to the actuarial accrued liability. The two methodologies employed are the explicit and implicit subsidy liabilities. For the explicit rate subsidy, the net result as of June 30, 2016, results in a positive AAL, or (\$49,660). Using the implicit rate subsidy, the AAL is a negative AAL, or \$105,409. Combining both the explicit and implicit subsidy, the net is a negative AAL \$55,749.

Actuarial Assumptions and Methods

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation. The actuarial methods and assumptions used include techniques that are designed to reduce short term volatility in actuarial accrued liabilities and the actuarial value of assets consistent with the long-term perspective of the calculations.

A summary of the principal assumptions and methods used by BRS to determine the District's annual required contributions to the Postemployment Healthcare Plan is as follows:

Valuation Date	June 30, 2013
Actuarial Cost Method	1 year amortization of initial UAAL
Amortization Method	level dollar
Asset valuation method	market value of assets
Discount Rate	7.00% for prefunding basis
Projected Salary Increases	3.2

NOTE 12-FUDUCIARY FUND FINANCIAL STATEMENTS

A Trust fund is used to report resources held by CalPERS in a purely custodian capacity. The assets are held for others and cannot be used to support the Kenwood Fire Protection District operations.

To account for funds held by CalPERS to fund post-retirement health care benefits for eligible members of the Kenwood Fire Protection District

**KENWOOD FIRE PROTECTION DISTRICT

Fund balance, end of the year			<u>\$ 799,333</u>	

The accompanying notes are an integral part of the financial statements

**KENWOOD FIRE PROTECTION DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
YEAR ENDED JUNE 30, 2016**

1. BUDGETARY BASIS OF INFORMATION

The Budget included in these financial statements represents the original budget and amendments approved by the Board of Directors. The budgetary basis is the modified accrual basis of accounting with encumbrances included as actual.

The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) attributed to the Board of Directors is the character level. The appropriated budget is prepared by character and sub-object. Transfers of appropriations between characters require the approval of the Board. The board made several supplemental budgetary appropriations throughout the year. A budgetary item was preliminarily approved at the October 2015 board meeting and then tabled for further discussion before final approval. The board did not revisit the original discussion regarding the OPEB contribution. The net result is that the Cal Pers Contribution to the OPEB trust was made without final board approval, ie. without budget appropriation.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g. purchase order, contracts) outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year. The District had no encumbrances outstanding at June 30, 2016.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of Directors
Kenwood Fire Protection District

I have audited the financial statements of the governmental activities and the major funds of the Kenwood Fire Protection District as of and for the fiscal year ended June 30, 2016, which collectively comprise the Kenwood Fire Protection District's basic financial statements and have issued my report thereon dated February 9, 2017. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Kenwood Fire Protection District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing my audit, I considered Kenwood Fire Protection District's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Kenwood Fire Protection District's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Kenwood Fire Protection District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

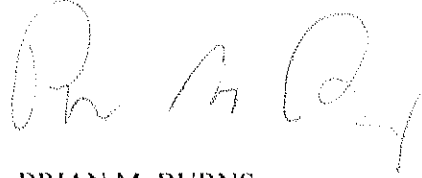

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Kenwood Fire Protection District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

This report is intended solely for the information and use of Kenwood Fire Protection District management, others within the organization, and the board and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink, appearing to read "B. M. Burns".
